

TAKA Invitation System and Commission Structure policy

1. Overview

TAKA offers a commission-based system that rewards users, hosts, and agents for inviting others. Each new user invited via your link adds to your team's total income, enabling you to earn a commission. The system provides a tiered commission rate based on the total revenue generated by your team, ranging from 4% to 20%.

Example:

If you invite me (and I don't receive gifts), and I invite User A (who also doesn't receive gifts), who then invites User B (who receives 150 million beans in gifts), your team's total income would be 150 million. Based on this, your commission rate would reach 20%.

Note: M represents a million; 10,000 beans are equivalent to \$1.

Taka agency commission rate		
Level	Basic Income (Beans)	Commission Rates
A	150M+	20%
B	50M ~ 150M	16%
C	10M ~ 50 M	12%
D	2M ~ 10M	8%
E	0M ~ 2M	4%
M= million, 10000 beans = 1 \$		

Commission Calculation

If your rate is 20% and you invite someone with a 4% rate, you can earn up to 16% commission on their revenue (the difference between 20% and 4%).

Formula:

$$\text{your commission rate} - \text{invitee's commission rate} \times \{\text{total income from the invitee's team}\} = \text{your commission this invite line}$$

The income from a direct invitee's team includes everyone they invite, without limits. As long as your rate is higher than theirs, you earn at least 4% commission on the team's income.

2. Additional Benefits

1. Shareholder Status

- When you have two direct invitees each at a 12% commission rate, and your own rate is 16%, you qualify as a TAKA shareholder.
- As your team levels increase, so does your shareholder bonus.

2. Lucky Wheel Rewards

- Greater invitee activity unlocks more bonuses and spins on the lucky wheel, with potential for higher rewards.

3. Game Rebate

- Earn up to a 0.5% rebate on games your invitees play. And if they invite other users to play, you can also have the chance to get that tier 2 bonus.

4. Game Shareholder Opportunity

- By inviting two active gamers, you can become a game shareholder, receiving a portion of TAKA's gaming revenue.
- Increase your shares in the bonus pool by adding more people to your team.

3. Roles and Rights in TAKA

TAKA has three roles: User, Host, and Coinseller (Agency). Each role has unique rights:

1. User

- Default role upon registration.
- No income or task incentives.

2. Host

- Hosts are divided into male and female hosts. Male hosts start tasks only after reaching a specified level.
- Hosts can perform hourly tasks and earn a maximum 20% commission.----host paid sending business payout rate 98.7% to 112%
- Cannot purchase coins directly but can convert gifts to beans, then to coins for sales.
- Becoming a host requires face verification.

Total Gifts Sharing MAX 100% + Rank Bonus					
Level	paid sending coins	target (Gifts Income in last 7 days)	hours/day (video/ audio)	total commission rate	The Amount you can earn more now (if you are 94.5% agency before) \$
S	50,000,000	35,000,000	3	94.50%	0.0
A	30,000,000	21,000,000	3	94.50%	0.0
B	15,000,000	10,500,000	3	94.50%	0.0
C	10,000,000	7,000,000	3	96.60%	21.0
D	7,000,000	4,900,000	3	97.50%	21.0
E	5,000,000	3,500,000	3	98.70%	21.0
F	3,000,000	2,100,000	3	98.70%	8.8
G	1,000,000	700,000	3	98.70%	2.9
H	200,000	140,000	2	101.50%	1.0
I	100,000	70,000	2	112.00%	1.2
J		<70,000	2		

3. Coinseller (Agency)

- 15% gift commission, based on received gifts.

- Up to 20% income commission, including up to 16% invitation rewards.
 - Directly purchase coins from the official platform.
 - Eligible for a “Senior Seller” tag and recharge leaderboard status through recharging.
-

4. Starting as a Coinseller

To start selling coins:

1. Open a room and set the name to "coins available."
2. List your coin prices in the room description.

- **Example (India):**

10,000 coins for ₹85.-- paid sending

Coins price:

Rs	Coins
-----------	--------------

500	50,000
------------	---------------

1,000	100,000
--------------	----------------

5,000	500,000
--------------	----------------

10,000	1M
---------------	-----------

This setup helps clients locate you, allowing you to stay in the room and conduct sales.

5. Profit Example for Coinseller Transactions

Here’ s an example to illustrate your profit margin as a coinseller. Assume a minimum 4% commission rate (actual rate may vary).

Scenario:

- A user with 5,000,000 coins wants to cash out.

- Market rate: 10,000 coins = ₹85, so you pay the user ₹42,500.

Step-by-Step Profit Breakdown:

1. Receive Coins as Gifts

- User sends coins as gifts to your host, who then receives:
 - 3,500,000 coins
 - 735,000 as a 20% max income commission
 - An additional 140,000 from your 4% commission rate

Total: The host receives 4,375,000 beans.

2. No Direct Earnings on Exchange

- At the minimum 4% commission rate, no direct earnings on this exchange.

3. Convert Beans to Coins

- The host transfers 4,375,000 beans back to you without transfer fees, allowing you to receive 4,375,000 coins.

4. Selling Coins

- Market rate: 10,000 coins = ₹100, so 4,375,000 coins convert to ₹43,750.

Final Profit

- Profit = ₹43,750 - ₹42,500 = ₹1,250.
- You can share this profit with your host to encourage team growth.

As you invite more hosts and collect more gifts, both your team and earnings can expand significantly.

This document outlines TAKA's system, roles, and the earning potential of building a team.

Taka 98.7% video

HOW host gets a max 98.7% gift commission when get 5Mcoins gift

now in taka app

The host has 70% fixed gift commission+hourly rewards+4% to 20% self commission

agent have 70% fix gift commission+5% to 15% daily gift commission +4% to 20% self commission and agent only max get $70\%+70\%*20\%+70\%*15\%=94.5\%$

HOW can host and agent total get 98.7% gift commission when host gets 5M coins gift from game user?

- and then the agent can get an extra 21dollars/week profit from the host compared to the old 94.5% paid sending with game user I will explain to you

$$5M*(98.7\%-94.5\%)=21\text{dollars}$$

So, you add more hosts to do 5M paid sending every week and, for example, you have 10 hosts who can do 5M coins gift paid sending and you can get $21*5=105\text{dollars}$ profit

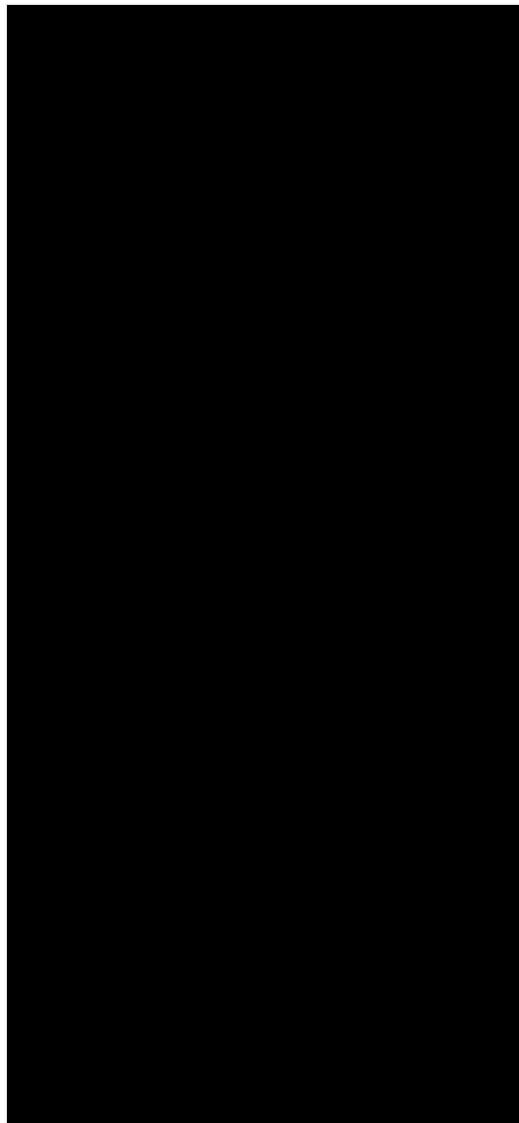

you can get more profit if you have big paid sending every week and it is best send to host because send to host and host and agent can total get 98.7% gift commission now

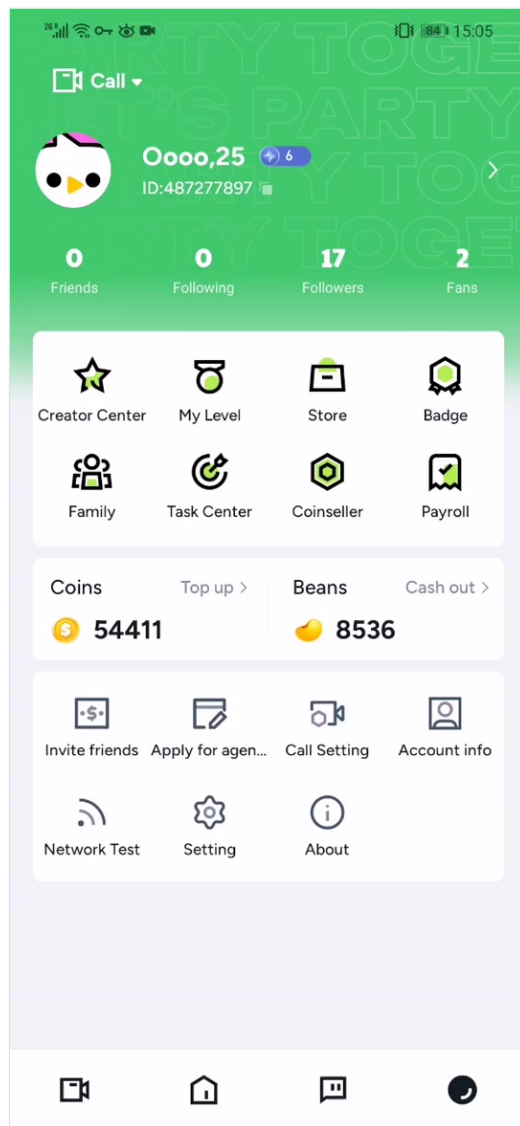

because send to host and host and agent can total get 98.7% gift commission now

check in this picture and when the host gets 5M coins gift
and host and agent total will get
 $5M * 98.7\% = 4935000 \text{ beans}$ (70% part1+14.7% part2+14%
part3=98.7%)
