Agent Responsibilities:

- Basic requirements for new agencies: onboarding of at least 5 hosts.
- Agents are individuals or teams responsible for recruiting and managing hosts on the Joyo Live platform. Their core duties include:
- Recruiting genuine hosts who can perform on Joyo Live.
- Guiding hosts to help them pass the official audition and maintain regular live activity.
- Ensure the recruited hosts follow platform rules and do not violate content or behavior policies.
- Supporting hosts in achieving their income targets.

Agent Commission Structure

Joyo Live offers a limited-time 12% bonus to all agents for the first 3 months after joining.

Agents earn commissions based on the total income (in Diamonds) generated by their team of hosts. Commission percentages range from 4% to 20%, depending on the total basic income accumulated by their entire team in the past 30 days (today + last 29 days).

Example Commission Structure:

- Total team basic income: 30M Diamonds
- Agent Level: 20% commission
- Income: $30M * 20\% = 6M$ Diamonds (equivalent to \$600)

Agency diamond income = agency host's total diamond income + all sub-agency hosts' total diamond income. The higher the agency's diamond income, the higher the commission rate.

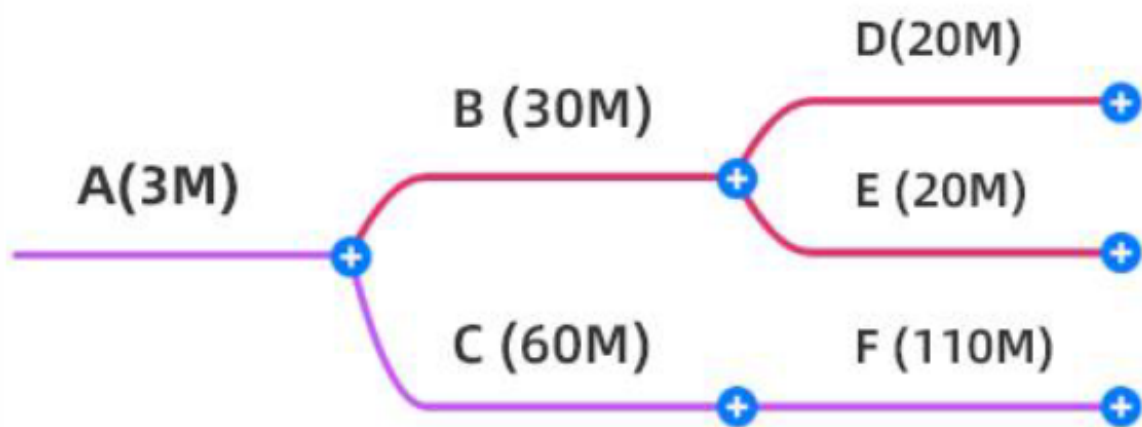

Agency commission = diamond income of agency hosts * Agency commission rate (as shown below)

Agency Commission Rate

Level	Diamonds Income (P	Video Live	Voice Room
D	0 - 1.5M	4%	4%
C	1.5M - 7.5M	8%	8%
B	7.5M - 37.5M	12%	12%
A	37.5M - 120M	16%	16%
S	> 120M	20%	20%

Agency Invitation Reward Rate

Level	Diamond Incomes (Pas	Video Live	Voice Room
D	0 - 1.5M	4%	4%
C	1.5M - 7.5M	8%	8%
B	7.5M - 37.5M	12%	12%
A	37.5M - 120M	16%	16%
S	> 120M	20%	20%

Your team includes: You + Direct agents you invited + Sub-agents invited by your invitees + Hosts under these agents

Agency A invites Agency B and Agency C,

Agency B invites Agency D and Agency E,

And Agency C invites Agency F.

- Agency A's commission = $(A:30M+B:30M+C:60M+D:20M+E:20M+F:110M = 243M) * 20\%$
- Agency B's commission = $(B:30M + D:20M + E:20M = 70M) * 16\%$
- Agency C's commission = $(C:60M + F:110M = 170M) * 20\%$

1. Agency A's commission from inviting Agency C = (Agency A's commission rate 20% - Agency C's commission rate 20%) * host's total income under Agency C 60M = 0 * 6000 = 0

2. Agency A's commission from inviting Agency B = Agency A's commission rate 20% - Agency B's commission rate 16%) * host's total income under Agency B 30M = 12M

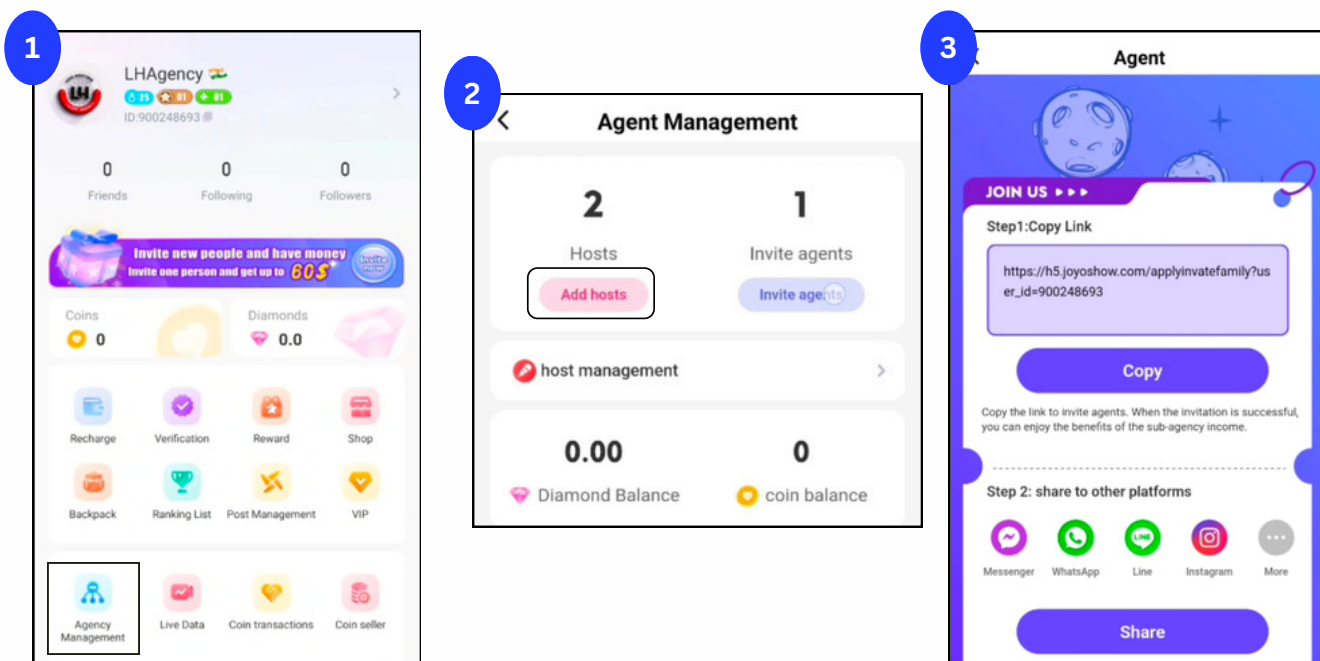

Note:

- If your sub-agent's commission rate is equal to yours (e.g., both 20%), you won't receive additional commission from their hosts.
- If your rate is higher, you'll earn the difference.
